

Troop 37 Rank Goals Assignment

Goal oriented people tend to be more successful in scouting and in life. As boys advance through scouting, it is important for them to think about goals they wish to accomplish. With that in mind, there is a small assignment required once a scout is ready to advance. The goals assignment can be expressed as a **paragraph** or as **bullet points** (i.e. state the goal and list bullet points about how you will accomplish the goal) It is not a scouts' ability to write that we are assessing. What is important is that the boys know how to set clear goals for themselves and know how they will accomplish them.

Tenderfoot –

1. A short term goal. (Something you can accomplish in 1 – 2 months).
